SIGMA
ENTERPRISES COMPANY LLC
A MAZRUI ENERGY COMPANY

Overview

Sigma Enterprises Company, established in Abu Dhabi in 1990, part of Mazrui Energy, is a leading commercial partner for energy industry solutions in the Middle East. Offer technical expertise and a wide range of products and services, including advanced oilfield equipment, clean energy solutions, and digitalization technologies. With over 30 years of experience and partnerships with world-renowned energy service providers, Sigma Enterprises drives clients toward operational excellence across the region.

Focuses on forging OEM partnerships and strong business relationships with a long-term strategic vision. Sigma Enterprises Company is an exclusive partner of Cameron, providing vital technical support for the Middle East's oilfield sector. They offer essential equipment like Blowout Prevention (BOP), valves, and spare parts for smooth operations. The company also provides both conventional and unconventional oilfield solutions partnering with prominent international companies.

**“UAE’s most client-centric local company, providing
Technical Sales & BD leadership across the Energy sector.”**

With over three decades of operational excellence, Sigma Enterprises has built a strong reputation for Wnergy solutions representation and trading.

○ **UAE Headquarters**

Operation > Abu Dhabi - Dubai - Kuwait - Iraq - Yemen

Branch Offices > KSA - Qatar - South Iraq & North Iraq - Turkey

As a result of its strategic location in the United Arab Emirates our company has a vast service reach throughout the globe.

Our Value Proposition

- Bridging global partners with the region's energy markets and emerging opportunities.
- Driving growth and innovation through advanced engineering, technical expertise, and sustainable solutions.
- Delivering value through local representation, market access, and technology integration.
- Ensuring QHSE excellence and compliance in every operation.
- Fostering long-term, strategic partnerships to advance the energy transition.

Memberships & Certifications

Our Product and Solutions

As a reliable partner that represent over 80 different global brands with various specializations we supply the regional and domestic markets within the following domains:

SOLAR ENERGY

NUCLEAR ENERGY

CO2 REDUCTION

DIGITALIZATION

Our Transition Solutions

We help organizations lead the way in reducing CO2 emissions and enhancing sustainability.

Category	Description	Principals
 Nuclear	From project concept to implementation, we deliver innovative solutions for nuclear energy, including power plants and nuclear research facilities, for Energy Industry EPCs, Operators, and Stakeholders. With the highest standards of health, quality, safety, and the environment, we design solutions for Health Physics, Radiation Protection, and Nuclear Measurement.	

Emission Control

Our Advanced Energy Response Solutions support Energy Industry organizations and stakeholders mitigate operational hazards and crisis. In addition, they help to create a more safe, sustainable, and environment-friendly operations

CIT³CH

Leading the Energy Industry Forward

Technology and Digitalization/AI Solutions

Our high-tech solutions enable international and national energy organizations to embrace Digital Transformation and Industry 4.0, ensuring agile and efficient operations.

Category	Description	Principals
AI Advisory, Deployment & Training Services	Provides AI solutions, advisory, and training to empower enterprise-scale data science excellence.	 Soothsayer Mazrui AI
Digital Software for Drilling and Completion Operations	Provides AI-driven, real-time software solutions that optimize drilling operations for the energy sector through data science, machine learning, and automation.	 EXEBENUS
Software for Well Planning	Delivers advanced, cloud-based engineering software that empowers energy engineers with efficient, automated well planning and design solutions.	 Oliasoft
Digital Transformation Strategy & Consultancy Services	Drives digital transformation with end-to-end IT strategy and software solutions.	 Axellec
Real-time data-driven Drilling Optimization	Transforms real-time data into scalable solutions for safer, more efficient drilling, proven across 450+ wells worldwide.	 Sekal
Digital Workforce Training:	Prepares the next-generation workforce in the process industry with digital replicas and simulators, enabling efficient onboarding, reduced downtime, and faster competency.	 VOOVIO
AI-Powered Workforce Protection	Offers AI-driven software solutions for digitizing field operations, enhancing productivity while ensuring compliance with HSE standards and ESG regulations.	 DEAP VISION
AI-Powered Operational Risk Management	An AI company that reduces the cost and risk of managing heavy industry facilities.	 HYBIRD
Real-Time Well Operations & Workflow Optimization	A digital solution that improves safety and efficiency in well operations, offering real-time situational awareness and streamlined plan management.	 HORIZON
AI Driven Safety and Sustainability Platform	Providing world's first Green AI platform to improve energy efficiency, safety and reduce carbon emissions with its proprietary AI and Digital Twins Technologies.	 LivNSense

Conventional Energy Solutions

Our innovative solutions help international and national energy organizations optimize their conventional energy (Oil, gas, and petrochemicals) assets and overall operations.

Category	Description	Principals
 <p>Diesel Generators Supply, Repairs & Services</p>	<p>Supply and repair of medium speed engines and generating sets in the power range between 600 and 10400 kW.</p>	     
 <p>Asset Integrity and Corrosion</p>	<p>Detection and monitoring cathodic protection, marine and industrial coating, and abrasive blast cleaning and surface treatment equipment supply. Supplier of premium quality industrial control valves, spray nozzles, injection quills, strainers, filters, and forge fittings.</p>	        
 <p>Engineering and Consulting Services</p>	<p>Designs and delivers offshore engineering solutions for the global oil and gas industry. We provide Waste Heat Recovery solutions and other engineering solutions such as Instrumentation, SCADA & Telecom, DCS, and Integrated Control and Safety System.</p>	
 <p>Oilfield Services compression system design</p>	<p>We offer H2S control treatment & processing, mud cooling, fluid laboratory service frac plugs and maintenance solutions. We deliver highly effective equipment and services to provide casing and liner solutions, industrial bolting, engine and generator services, rebuilds, servicing, and supply – both covering the onshore and offshore market. Offering supply, repair, refurbishment, and recertification of rotating and drilling equipment.</p>	       
 <p>NDT (Non-Destructive Testing)</p>	<p>We supply products and technology that promote green energy transition such as energy conversion systems and power solutions.</p>	  
 <p>Metering Systems flow meters</p>	<p>We supply metering systems for the Oil and Gas sector, working with upstream, midstream, and downstream customers.</p>	 

Unconventional Oil & Gas Solutions

We offer sustainable strategies for maximizing unconventional resource recovery

Water Solutions

Our innovative water solutions ensure efficient management throughout the entire drilling and fracking life cycle.

Specialty Engineering Solutions

Our innovative solution help international and national energy organizations to have a smooth and reliable day-to-day operations.

Category	Description	Principals
 <p>PPE & Safety Products</p>	<p>Complete range of Personal Protective Equipment for every industry such as fall protection, flame resistant garments, and fire protection systems.</p>	  
 <p>Trading & Consumables</p>	<p>Supplier of consumable products and equipment such as advanced lubricants, premium quality greases and sealants, wireline fluids, valve cleaners, application equipment and seamless butt-welding fittings.</p>	   
 <p>Marine Services</p>	<p>We offer products and solutions for the maritime industry.</p>	  

Category	Description	Principals
 <p>Oil Spill Emergency Response</p>	<p>Oil spill recovery services, waste management & treatment, soil treatment, water separation treatment works, buffer tanks, mud skips, mud washers, cuttings blower unit, well service pump, and rec. tanker unit.</p>	 

 <p>Rig Equipment & Services</p>	<p>Offer blow preventers, wellheads, sub-sea production, control systems, flowline connection systems, drill pipes, drill collars and accessories, tubing suspension equipment and repair, maintenance, and robust end-to-end rig solutions.</p>	     
--	--	---

 <p>Pumps, Motors, Compressors, Hydraulic, & Pneumatic Cylinders</p>	<p>Complete range of manufacturing of pumps, motors and compressors.</p>	     
--	--	---

 <p>Valves Actuators Filtration Connectors gear boxes industrial spray NO22 los</p>	<p>Provider of Electro-Hydraulic Actuators and Hydraulic Control and Systems, high-pressure steel valves, safety relief valves, casing connectors and oilfield tubular accessories.</p>	            
---	---	---

Our Operational Capabilities

Our Warehouse

Sigma Enterprises Company has a spacious 500sqm+ covered storage space for a smooth supply chain process right from receipt, inspection, preservation, and proper storage. We Maintain good housekeeping, high security systems for the safety of men and materials as per Government guidelines and Industrial standards.

We maintain lean inventory management by finalizing long-term contracts with our leading customers to cater their supply chain requirements.

Our warehouse operation is well-maintained by an integrated ERP system for tracking the movement of each inventory item right from receipt, put-away, picked, packed, and shipped.

Our Logistics

We have a professional Logistics team for planning and delivery of materials on time to meet our customer requirements. We have a fleet of company-owned pickups and trucks for quick delivery of goods and services and have call of agreements with a leading logistics company for all types of trucks and special vehicles for fast-track movement of all equipment as per customer requirements.
